

INDENT CRIMP TOOLS

Our small frame indent tools are ideal for miniature and subminiature inner pin and socket contacts typical in high-speed data applications. Pneumatic versions are also available.

AFM8
20-32 AWG

MH992
38-24 AWG

FORM CRIMP TOOLS

Our open frame crimp tools are ideal for outer contact bushings, ferrules, and shielded crimps for coax and multi-conductor cables. Interchangeable dies are available in hexagonal, circular, nest, and indent.
